

Customer Bulletin – April 2017

Capillary Tube Conversion Process

Beginning in April 2017, PTS Diagnostics will start the process of phasing out their inventory of Capillary Tubes (glass/plunger) and Capillary Blood Collectors (plastic). This will eliminate the following catalog numbers over the ensuing months:

- Capillary Tubes (glass/plunger)
 - 1739 – 15 μ L capillary tube
 - 1766 – 30 μ L capillary tube
 - 1740 – capillary plunger for 15-30 μ L capillary tubes
 - 1745 – 40 μ L capillary tube
 - 1749 – capillary plunger for 40 μ L capillary tubes

- Capillary Blood Collectors (plastic)
 - 5655 – 15 μ L capillary blood collector
 - 0774 – 20 μ L capillary blood collector
 - 1777 – 30 μ L capillary blood collector
 - 0739 – 40 μ L capillary blood collector

The PTS Collect™ capillary tubes (glass/plastic) will be the only capillary tube product line available through PTS Diagnostics. The currently available PTS Collect capillary tube catalog numbers are:

- 2863 – 15 μ L capillary tubes
- 2864 – 20 μ L capillary tubes
- 2865 – 30 μ L capillary tubes
- 2866 – 40 μ L capillary tubes
- 2134 – 50 μ L capillary tubes
